IS IT PITLERY?

CHAUNCEY M. DEPEW IS too big and too alever a man to be used by the politicians as the FITLER of New York, in the interest of J. G. BLAINE.

. This is palpably the use made of the ridioulous ex-Mayor of Philadelphia. And the Brance or Busters in this State wink know. ingly at the union of the New York delegation upon the golden-tongued CHAUNCEY. Ta it FITLERY?

THE OUNCE OF PREVENTION. It ought not to need a cholera scare to in duce the authorities to clean our horribly dirty streets and to purify, as far as it can be

done, the dreadful tenement-houses. Filth diseases are already too prevalent. The death rate among children is unseason ably high. What will be the condition in

Angust if the situation be not improved? To-morrow the tenement-house inspection begins. Let it be followed by prompt and thorough work by the Board of Health. Street-cleaning that cleans should not wait

for to-morrow. It is high time to apply the ounce of pre

A OLUB WELL USED.

Policeman McGowan made good use of his club last night in "laying out" a swell " masher," the famous FRED MAY, who was amusing himself by insulting ladies as they passed and drew a revolver on the officer when ordered to "move on."

When a poor devil gets tipsy and makes himself offensive in the street he is commonly "run in" in short order. But a club swell" in the same condition is ordinarily taken home in a cab.

It is a good thing once in a while to see even-handed instice prevail. This was a clubbing well bestowed.

MORE WATER.

CLOTHING CUTTERS.

History and Condition of Their Organization.

Their Struggle for Fair Wages and Hours of Work.

JESSE G. MILLER.

Ex-Secretary of the Clothing Cutters' and Benevolent Union.

WRITTEN EXPRESSLY FOR THE EVENING WORLS Some thirty odd years ago a few men met in a saloon on Stanton street and entered into conversation regarding the condition of their trade of clothing cutting. After a few more gatherings the Clothing Cutters' Protective and Benevolent Union was organized, and for a time it gained largely in membership and was the means of shortening the hours of labor and increasing wages.

A STEP BACKWARD. When the men of the trade-members of our organization-had accomplished this they thought their duty was done and became neg-

ligent of their organization. They failed to attend the meetings of the union, which apathy finally resulted in again throwing them back to where they were be

fore the organization was formed. Thus for a time the employers had things their own way, and reduced the wages and lengthened the hours as best suited them. RENEWED EFFORT.

The organization had not died out entirely. and again went to work quietly reorganizing, and, after a hard struggle of a few years, they succeeded in regaining the increase m wages under the ten-hour system. This continned although the organization had been decreasing in membership.

The more active members of the trade, although largely in the minority, upheld the union, and also maintained the standard average wage, which was about \$18 per week for fifty-nine hours' work.

THE MOVE FOR EIGHT HOURS. All went on smoothly for a number of years thereafter until the eight-hour move ment was agitated all over the country. Ther what was known as the "Old Guard" of the trade thought it wise to start in with the rest of organized labor and endeavor to obtain a reduction of the hours of labor to eight per

Having had a number of years' experience as an open trades union, we set about and or ganized as a local assembly of the Knights of Labor, and in August, 1883, became attached to D. A. 49.

In the short space of about two years we were over two thousand strong, with branches in Brooklyn and New Jersey, and the organization still growing. In 1886 we founded the United Clothing Cutters of New York, and on April 1, 1886, were strong enough to make an attempt to place the or ganization upon a firm footing by establish ing an office and general headquarters at 52 Bleecker street. ANOTHER BETBACK.

In that same year, just after we had go nicely settled down to our work, and were running along as smoothly as possible, lockout occurred. The seventy-five firms represented in the Clothing Manufacturers' Association went back upon an express agreementand refused to recognize our union by employing non-union hands. That lockout was disastrous for the time, but, like all ill winds, it blew us good, and from demoraliza-

tion we arose again, like the phoenix. A NATIONAL TRADE ASSEMBLY. Work was then commenced to organize a National Trade Assembly, which has been successful, and every city of any note is represented in the National District of Clothing Cutters, which is increasing and extending very rapidly throughout the United States

CO-OPERATION RESORTED TO. Immediately after the lockout in August. 1886, a co-operative clothing company, known as the Solidarity Co-operative Clothing Company, was formed. It consisted of members of the clothing trade who recognized the fact that such was the better way to teach the employer and illustrate to him that the workingmen can carry on business themselves and pay better wages and work shorter hours than the employers claim it possible to do. Also to show that they are able to introduce their products throughout the country which is demonstrated by the fact that they employ quite a number of hands and have a custom department at 132 Canal street, and are doing

quite a flourishing business. STATISTICS OF THE TRADE.

The number of clothing cutters in New York State is about 12,000, and in New York City about 5,000. The average wage paid today is about \$19 per week-better than ever before. There is no outlook for better wages

No strikes have taken place of any whatever, except the strike on the part of the employers on Aug. 30, 1886. The Clothing Cutters' Union has shown itself a conservative body of men and has had less strikes than any other trade organization. It was

always opposed to strikes.

There are no laws bearing on our trade except the general Conspiracy law of the State—a statute that ought to be amended so as to include the bosses and keep them from lock. ng out poor workmen.
The general state of our trade is fair.

The Word-Building Competition Vory Popular.

In your last night's edition of your pape you state that "do and does, vote and votes," are admissible as two words. Now in your first announcement you distinctly stated that no plurals, and only the letters contained in the words, THE EVENING World would be allowed. How is this? My

little son is mystified and wants this matter explained. 82 Olive street, New Haven, June 17.

[A wrong impression seems to have been conveyed by the answer to "A Word-Builder" in Saturday's Evening World. The question was asked whether the words vote, votes, do, does," should be counted as two words. They should be so counted. and not as four words; that is, only one form of the verb and no plurals are allow able, as originally stated. Aside from this simple rule, it is obvious that no word containing "s" could be admitted, as there is no "s" in the phrase "THE EVENING WORLD.1

THE FREE LECTURE LAW.

IT IS APPROVED BY THE BOARD OF ESTI-MATE AND APPORTIONMENT.

There Can Be No Difficulty in Making th Board of Education Must Be First Heard From - More Encouraging Interviews

An Evenino World reporter yesterday called upon the members of the Board of Estimate and Apportionment to get their views on the subject of the Free Lecture

The Board consists of Mayor Hewitt, Comptroller Myers, President Forster, of the Board of Aldermen, and Michael Coleman, President of the Tax Commissioners.

Comptroller Myers was first visited, and the conversation began with a few questions about the way the Mayor's cabinet received the bill.

"There was some opposition to it," said Mr. Myers, "not that the men were opposed to the idea, but because they thought it was a mandatory bill. Now, of course, the mat-

ter is out of our hands, and all we can do is to await the result of the Board of Education meeting, and make an appropriation accord-ing to their estimate."

What is your personal opinion of the law?" asked the reporter

"It is a splendid idea, and I heartily in-dorse any movement that adds to the educa-

dorse any movement that adds to the educa-tional facilities for the working people.

"There will be a meeting of the Board some day this week, and I have no doubt but what the matter will be discussed then, if we hear from the Board of Education in the meantime, or, if not, at the next meeting. At any rate, it will come up before Sept. 1."

President Coleman was next seen at his of-

fice in the Staats-Zeitung building.
"I have not had time to look at the bill," said he, 'and I have only a confused recol-lection of it, but from what I remember it seems to me to be a worthy action. It will probably be brought up at the next meeting, and then I will know more about it.

"I think the matter can be settled before Sept. 1, if we hear from the Board of Educa-tion before that time."

President Forster was seen at his office, 58
Wall street, and said:
"I can only speak for myself regarding the action of the Board of Estimate and Appor-

tionment.

"My own opinion is that money spent in this city for educational purposes is well spent, and anything under that head meets with my heartiest approval. spent, and anything under that head meets with my heartiest approval. Too much cannot be done to assist the working class in point of knowledge, and beyond the fact that some members of the Mayor's cabinet objected to the bill on account of some clauses in it which made it mandatory, there was no objection as far as I know.

"We hold meetings whenever it is necessary, and as we seldom go more than four weeks without meeting. I think the matter will be settled before September."

The interview with Mayor Hewitt was short.

"The Board has not yet discussed the matter." said His Honor, "and as for my own personal opinion, I will give that at the meeting when I am asked."

Manual training was introduced at the school Feb. 1. and both teachers and parents have been highly pleased with the results attained. The degree of proficiency which the scholars have acquired by this system was demonstrated this morning to many relatives and friends of the scholars, after the regular graduating exercises of song and recitation, in which Helen Lynch bore the honors of her class, had been carried out.

The guests were taken to the workshop and kitchen, where they saw the boys of the second and third grades draw and paint in the one, and saw the sirls of these grades prepare strawberry shortcake, tea biscuits, boiled rice, boiled potatoes and poached eggs in the other.

WAS THERE MALPRACTICE?

Suspicions Connected with the Sudden Death of Mrs. Townsend. The death, under circumstances which

point to malpractice, of Mrs. Louisa Townsend, aged thirty years, who resided at 760 Second avenue, was reported to the Coroner's Office to-day.

The first word of the case came in the form of a simple sudden death notice from the police of the Twenty-first Precinct, This notice stated that Mrs. Townsend yesterday afternoon stepped into the apartments of a neighbor named Pauline Goetz, and after seating herself on a chair suddenly expired.

neighbor named Pauline Goetz, and after seating herself on a chair suddenly expired. Other information was brought to the Coroner's Office by Mortimer Townsend, the widower of the dead woman. He desired a thorough investigation to be made, saying that he was convinced that his wife's death was the direct result of a criminal operation. She had been in a delicate condition, was much worried, and had hinted several times that she was dissatisfied. The woman had already given birth to seven children

Mr. Townsend said further that the woman Goetz was a midwife, and his wife doubtless went to her to obtain the relief she sought.

A searching investigation will be made to

BE RIGHT BEFORE YOU KICK.

The Lesson of Police Sorgt. Seeley's Boylets

Adventure-Sergt. McMillan's Turn.

"I had a peculiar experience once, in ase of mistaken identity," remarked Serga Seeley, of the East Sixty-seventh street police, and several listeners drew nearer to hear the details. Some years ago I was on one of the Staten Island boats, when I observed a man

against a bale of cotton. I approached softly on tip-toe and gave him a tremendous kick, at the same time shouting, 'Hello, Jack!'

"He was leaning in such a position that
the force of the kick sent him rolling on the
deck, and as he turned my laughter was out
short when I saw that it was a perfect

stranger.

"I helped him to his feet, brushed his clothes off and avologized, saying that I took him to be a friend.

"To my surprise he took the matter quite coolly, simply saying that I had a mighty funny way of recognizing friend; but it would have served me right had he returned my kick with interest."

"Speaking of unexpected blows," said

"Speaking of unexpected blows," said
Sergt. McMillan, "when I was a boy."

"About sixty years ago," added Bergt.
Seeley, irrelevantly.

"When I was a boy." continued McMillan, withering the interrupter with a glanes,
"the boys in my town were greatly interested in the Heenan-Sayres fight, and it got

another unexpectedly, crying 'time' at the

same instant.
"I was in the grocery store one night, and standing beside me was a new arrival in town, who had not yet experienced the town, who had not yet experienced the 'time' racket. One of the boys finally stepped up and struck the newcomer a resounding slap in the face, crying 'time' as he did so.

'When the stranger recovered from his surprise he drew back his arm, intending to strike the boy who had hit him, when his elbow struck me in the eye with such force that I was knocked backward over a barrel and almost stunned.

remedies, but I had a terrible black eye for many days after.

"The worst of it all was that the boy who was the cause of my mishap escaped all punishment from the stranger in the excitement of my misfortune."

The fifteen spirit portraits which were used in evidence during the Diss Debar trial will be added to the collection of forty-one pictures now in Inspector Byrnes's museum at Police Headquarters. Unless they are claimed or released by an order from court within one year from the date of their seizure they will be sold at public auction.

MRS. OSBORNE'S HORRIBLE DEATH.

She Was Burned Through the Upsetting of

an Oll Store. Coroner Eidman was requested this morning to take action in the case of the death of the wife of Dr. S. C. Osborne, of 1626 Tenili avenue. Yesterday afternoon the woman acc

tally upset a kerosene oil stove in her kitchen and the burning oil set fire to her clothing. She was burned so severely that the efforts of half a dozen physicians to save her life were futile and she died at 3 o'clock.

The condition of the remains rendered is impossible to embalm them, and C. H. Loomis, President of the Union Dredsing Company, who is a cousin of the deal woman, this morning sent a note to the Coroner urgently requesting speedy action in the case, as the relatives desire to have the body interred in the family plot at Binghamton as early as possible.
